Because your WaveRunner personal watercraft is such an important investment, you want to keep it looking its best. Yamaha's WaveRunner covers are designed to help protect your watercraft's appearance. Each cover features superior construction and materials to help provide long life as well as a custom fit. Attractive matching colors and graphics provide a stylish accent. Our covers are constructed of ultra-durable Sur Last® fabric for the ultimate protection against fading and the elements. It is also non-abrasive, water-repellent*, UV, mildew, and rot resistant.

Features include Vacu-Hold® design, which creates a vacuum inside the cover during transit to draw the cover down snugly to the WaveRunner. Benefits include reduced air-induced stress on the seams, and less aerodynamic drag. Additional features include a handy convenience zipper for access to the fuel tank cap.

* See page 38 for Yamaha High Tech Fabric Guard® spray, the recommended re-treatment care for your Yamaha cover.

DELUXE LIFT HARNESS

Our lift harness is very useful in moving even the heaviest Yamaha Watercraft. The brackets grip tight and are vinyl coated to help protect the finish. The two large stainless steel D-rings can be easily connected to a davit or other suitable lifting mechanism. Double-layer, high-strength webbing has superior UV and saltwater resistance. The harness is just the thing for dealership use as well as for owners who need to lift their WaveRunners. Rated up to 1100 lb.

MWV-WVLFT-HR-ES $244.95

WAVERUNNER® FENDER

Engineered specifically for WaveRunners, this fender hinges in the center to better protect hulls from docks designed for bigger boats. It hooks under the rub rail with a molded acetyl hook integrated into the back of the fender. Connect the top of the fender to a cleat or ski eye with the adjustable strap and vinyl dipped steel hook provided, or simply thread the strap through the rubber block provided and place it inside the storage compartment, then close the lid. The block anchors the fender strap perfectly and will not damage the body. (10″ long x 4″ wide x 2-1/2″ thick) (Sold individually, 2 per PWC recommended)

MWV-WVRNR-HH-BK $20.95

WAVERUNNER® PULL-UP CLEAT

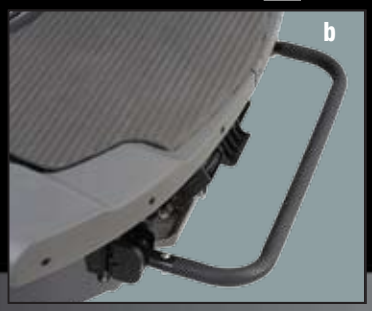
Make tying up a cinch while adding a custom look to your WaveRunner with this Yamaha Pull-Up Cleat. The cleat is made of highly polished 304 stainless steel with exclusive Yamaha branding. Base is sturdy polypropylene. Sits just 15mm off the deck, then fully extends to 40mm in use. Cleat mechanism is spring loaded, so it automatically retracts when you remove the rope. Mount on either side at the front or toward the rear – you can install four cleats for complete convenience in any situation. Dealer installation recommended; requires drilling and open access to the underside of the mounting surface. All mounting hardware included. (Sold individually.)

MWV-PUCLE-AT-07 $54.95

DELUXE WAVERUNNER® STAND

This premium WaveRunner stand has been specifically developed for our current heavier models. This stand boasts a 1200 lb. capacity rating, 6-inch swivel casters for easy movement, a pair of braking casters, 19-inch load height, long 57-inch bunks for stability, and a black powder-coated steel tube frame with caster reinforcements. This stand will look great in the showroom, and will be a workhorse in the service department or garage.

MWV-WVDLX-ST-ND $339.95



FOLDING RE-BOARDING STEP

Provides a wide step surface for ease of boarding, especially in deep water. Made from 6016-T6 aircraft quality aluminum, and features a padded foam step for comfort.

YAMAHA ENGINE HOUR METER

A must-have for logging engine time on your WaveRunner or Yamaha Boat. Installs in minutes, and is mounted in the engine compartment.
ENG-HOURS-00-00 $39.95

YAMAHA DIGITAL DEPTH FINDER

This depth finder is standard equipment on SX230 and AR230 models and has lots of great features. It will give precise depth readings from 2-1/2 feet to 200 feet. It also has a 3-stage warning system for minimum and maximum depths. Waterproof gauge has a backlit display and keys with easy-touch programming. Black and white gauge face/ bezels both included, customizing the look of your boat. Mounts in a standard 2-1/8˝ gauge hole, and the transducer mounts internally or externally.
Fits Yamaha Boat models and most other boats (not for WaveRunners)
MAR-DEPTH-FN-DR $184.20

Note: This depth finder should not be used as a navigational aid to prevent grounding, boat damage, or personal injury. Always operate the boat at slow speeds in unfamiliar water, or if you suspect shallow water or submerged objects, as water depth may change too quickly to allow time for you to react.

YAMAHA 230 DASH MAT

Help stop items from sliding around on top of the head compartment. Made of charcoal-gray genuine Hydro-Turf® with 3M™ self-stick backing.
Fits all '07~'09 model 230 series

SBT-DASHM-AT-08 $13.95

YAMAHA KIDNEY SHAPE TABLE

Want to upgrade your stock table to a larger size? This big table offers more functionality, with a kidney shape so it is easy to maneuver around it, yet it still fits in the stock storage location on your Yamaha Boat. It also has three cup holders instead of two as on the stock table. Designed as a direct replacement, this table is made of the same acrylic-capped ABS material as the stock table, and uses the same hardware. Requires transfer of the pedestal base from the stock table.

SBT-KDNYT-BL-08 $149.95

DELUXE STAINLESS DRINK HOLDER KIT

Add a bit of elegance and convenience to the cockpit with this polished stainless steel drink holder kit. Holds three drinks. All necessary mounting hardware is included along with a charcoal-gray Hydro-Turf® mat.

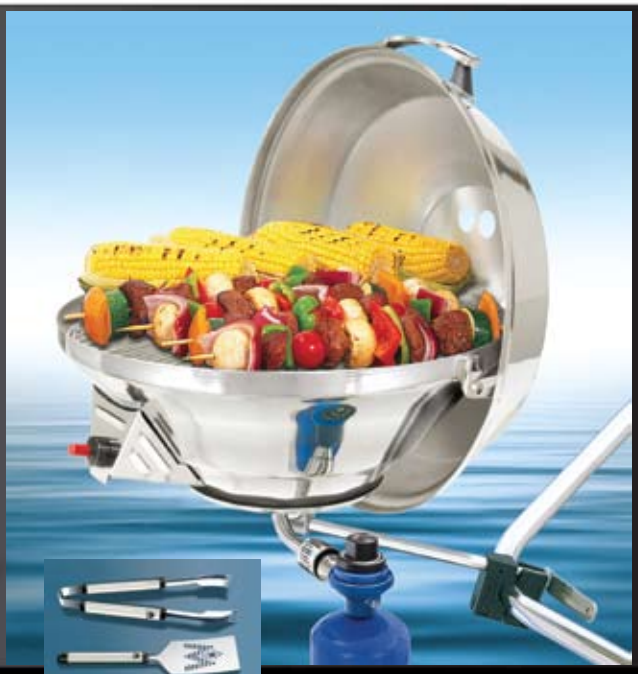
NEW! MAGMA MARINE KETTLE® 2 GRILL KIT

The Marine Kettle® 2 incorporates new features that are both useful and user friendly, including being virtually windproof. Its dependability in a stiff breeze is due to a virtual blow-out proof turbo venturi and valve system. A front mounted piezo igniter is now included, as well as a new patented burner and heat distribution system that reduces flare-ups. The burner also adds years of life to the grill by directing more heat to the cooking surface.

These grills have full, double lined inner safety shells to keep the outside of the grill cooler. A mirror polished, 18-9 marine-grade stainless exterior finish provides superior corrosion resistance. Topping off the Kettle® 2 is a polished, stainless handle designed to stay cool. The hinged lid is balanced so it won't slam shut as the boat rolls. Magma's patented plate and dome system make it the only boat grill that is truly a grill, stove or oven — a great advantage to boats without a galley, or if the first mate just wants to cook outdoors.

The grills feature a new cast stainless indexing bracket and clamp to provide easier, more positive level mounting. It uses standard, disposable, 1-lb. propane canisters or will easily adapt to boats with existing onboard LPG (propane) or CNG (natural gas) systems. The newly designed valve system adjusts left, right, inboard or outboard for easy heat control access and fuel-bottle change.

SBT-GRILL-KT-09 $479.99



Cover, Mount, and Utensils Included

MARINE DUAL BATTERY KIT

This kit is a must-have when adding additional electronics to your boat (stereo upgrades, light bars, etc.). This kit comes complete with a BEP Marine® Battery 701S™ Battery Switch, a BEP Marine® Voltage Sensitive Relay (VSR), and a GIL Marine® Composite Battery Box plus all necessary wiring and hardware. This kit will allow you to keep one battery isolated at all times for reserve purposes. The VSR will allow the engines to charge battery #1 until it is topped off at 13.7 VDC, then automatically switch over to battery #2 to charge it. Turn the knob on the battery switch to select using battery #1 by itself, battery #2 by itself, or both batteries together in parallel. You can also switch off battery current altogether. Professional installation recommended. Marine batteries not included. Fits any single battery boat with room for another group 24 battery.

STORAGE PACK

Need to bring along items that you don't want to move around in the storage compartment or get wet, such as keys, wallets, or cell phones? This pack is your answer. It is designed to be mounted with a self-adhesive hook-and-loop fastener above the floor in a storage compartment so it won't get wet if any water inadvertently gets in the compartment. Easy to remove when you get back to shore. Fits all Yamaha Boat models

12-VOLT AIR PUMP

This high-volume (290 liters/ minute) 12-volt portable air pump inflates and deflates towables, boats, pools, mattresses, and beach toys quickly and effectively. Most pumps on the market don't put out this kind of air pressure and volume (9.6 cu. ft./min. 0.8 psi). The universal valve fittings fit all popular valves. For added convenience, the cigarette lighter/ 12-volt power port plug is equipped with a 10 ft. long power cord.

MAR-12VPU-MP-06 $23.95

AIRHEAD® HIGH VOLUME 12V INFLATABLE PUMP

The AIRHEAD® 12 Volt High Pressure Air Pump is the perfect pump for inflating your towables while out on your boat, or anywhere that you don't have 110v current. AIRHEAD's® new 12 Volt Hi Pressure Air Pump w/ Pressure Release Valve produces 3 times the pressure of other 12 volt air pumps. Adapters are provided for all popular valves including stem, Boston, Leafield, Bravo, Halkey-Roberts® and more. A removable pressure-release valve limits the output to 1.4 psi, the perfect inflation pressure for towables. Hook this powerful pump directly to your car, truck or boat battery with the alligator clips connected to a 10 foot power cord – it draws too many amps to plug into a cigarette lighter. Volume: 410 liters/min. Draws 28 amps.

RING FREE FUEL ADDITIVE

In any hard-working engine, carbon deposits can build up over time, seriously affecting performance and engine life. But while carbon buildup is normal, it's also avoidable. Regular use of Yamaha's Ring Free fuel additive prevents the carbon naturally produced in your engine from sticking to internal components. Ring Free cleans carbon and varnish from piston rings, piston crowns and combustion chambers, as well as exhaust and intake manifolds. It also cleans valves, valve stems, and valve seats in four-stroke engines. Carburetor and fuel injection systems also benefit from its strong cleansing ability, as do spark plugs – especially in two-stroke engines.

RING FREE FUEL ADDITIVE

Ring Free employs the highest grade of engine-cleaning technology, preventing ring stick, varnish, and carbon build-up. Use as a regular treatment or as a "shock treatment," for two or four-stroke engines.

Improves Power and Efficiency in Two- and Four-Stroke Engines
Works in all gasoline engines, and it's ideal for use as a constant fuel additive to keep your engine clean.

Removes Deposits
It can also be used in stronger concentrations to "decarbonize" internal engine components. Protect your Yamaha engine and maximize its performance with regular use of Ring Free. Available exclusively at authorized Yamaha dealers.

FUEL STABILIZER & CONDITIONER

When used with fresh fuel it protects the fuel system from varnishing and maintains octane levels during storage. Used regularly it will help keep the fuel system clean from gumming and varnishes that could rob power and performance. Works with ethanol (E10) fuels.

PHITEN RACING PRODUCTS

The science of Phiten Racing products is based on the Energy Transport System™ (ETS) in which Phiten's Proprietary Phild Processing technology bonds titanium with water molecules then permeates this Aqua-Titanium™ into each fiber of its wearable products. Phiten products work to stabilize the flow of energy. Research has shown that wearing Phiten products increases the efficiency of oxygen intake to improve stamina and has an overall relaxing effect. Potential benefits include alleviation of discomfort, enhanced circulation, relaxation, stabilizing of energy flow, reduced stress, and tension soothing.

NEW! SPEEDY-HITCH CAMERA SYSTEM™

Speedy-Hitch camera makes backing up a trailer safe and hassle free. With Speedy-Hitch wireless camera, hitching a trailer becomes a one-person task. Line up ball and hitch perfectly every time. Now you can easily see what's behind you when backing your truck, auto or trailer. This portable camera can be used for marine, motorcycles, RVs, snowmobiles, SUVs, ATVs, and camper trailers. Speedy-Hitch Camera is great for reversing trailers into tight storage places. For even easier backing of a trailer use the "Reverse Image" button on the monitor. When you press the reverse image button the image you see in the monitor is now reversed. This can make backing easier because what direction you turn the steering wheel is the direction the trailer goes. Speedy Hitch camera works day and night with infrared technology. Installation requires no wiring because it is wireless. Both the camera and monitor include rechargeable batteries. The camera has a magnetic mount so no screws or fasteners are necessary. Stick it to your bumper, tailgate, or on the trailer itself. Remove when finished and store in carrying bag. The monitor features full color LCD 960 x 240 image. Two rechargeable lithium batteries, carrying bag and 12-volt charger are included.
